For Immediate Release:

Baja Designs Introduces the Ultimate Trail Light, the Diablo Rally

San Marcos, CA. – Baja Designs new Diablo Rally light will have you seeing double by incorporating their race proven Diablo lens not once, but twice! The new Diablo Rally doubles your light output by incorporating two Baja Designs Diablo lenses stacked one on top of the other. The Diablo Rally gives you the benefit of being able to aim each light individually! This allows you to aim one light immediately in front of the bike for slow speed technical and peripheral vision while the other can be aimed far ahead for higher speed sections.

“Baja Designs new Diablo Rally light is the best lighting set-up I have ridden up to 80mph bar none! This light is super compact and doesn’t affect handling which makes it great for everything from tight switchbacks to fast desert trails. There simply isn’t a better trail light on the market.” - Tex Mitchell (Baja Designs Engineer and Former Factory Honda Team Rider)

This light is no wider than your fork tubes and its lightweight aluminum construction ensures that it won’t affect your bikes handling. In tight conditions the Diablo Rally excels. Everyone knows that crashing is part of riding and racing. The Diablo Rally is very resistant to damage thanks to its compact design and sturdy billet aluminum construction. Offered in Dual HID and Dual Halogen, there is a set-up that is right for every bike and budget. If you are looking for the ultimate trail, woods, desert light then be sure to check out the new Diablo Rally by Baja Designs!

Baja Designs is a leading manufacturer and marketer of high-quality aftermarket lighting systems and adventure products for the off-road industry. Headquarters are located in San Marcos, California.

MSRP: \$445 (Halogen), \$975 (HID)
