The Scientists of Lighting

LIMITED LIFETIME WARRANTY

Baja Designs proudly offers a LIFETIME WARRANTY against manufacturer's defect on all of the products that we manufacture.

These are comprehensive warranties; other than the exclusions below – you're covered. If your LED or HID bulb burns out, you're covered. Additionally, cutting off our connector or changing your lenses does not automatically void your warranty.

Exclusions:

Installation errors, abuse, misuse or crash damage. You must be the original owner of the product and can supply proof of purchase.

Baja Designs manufactures its own products as well as resells products manufactured by others. Baja Designs makes no express or implied warranties on products not manufactured by Baja Designs including without limitation any warranties or merchantability and fitness for a particular purpose. We will however, pass on all warranties made by the manufacturer, who has sole responsibility for performing such warranties.

Baja Designs will pay the freight if your product is less than 90 days old, otherwise defective products must be returned to Baja Designs, Inc., freight prepaid. At our option, we will repair or replace items in question and return them at no charge. If the identical product is no longer available we will replace with a similar product of equal value. Baja Designs Inc. will not be responsible for any indirect or consequential damages in connection with defective merchandise.

Indemnification:

Buyer hereby acknowledges off-roading, racing and driving at night are dangerous activities and that the products and/or supplies purchased from Baja Designs are used in an inherently dangerous activity that may endanger life and limb; and in no event shall the seller, or seller's heirs and assigns, be held liable for consequential damages, nor shall seller's liability on any claim for damages arising out of or connected with the sale, delivery, or use of purchased products and/or supplies exceed the purchase price of the products and/or supplies.

Customer satisfaction stands at the core of who Baja Designs is as a company. BD gives you a full 30 days to test out your new light and if you are not 100% satisfied with your purchase, you can send it back for an exchange or refund of the purchase price and applicable tax.

Exclusions:

baja designs
The Scientists of Lighting

Items purchased through a Baja Designs authorized dealer must be returned through the dealer. Only available on LED auxiliary lights and product must be in sellable condition at MSRP. Product that has been damaged in any way after the original purchase date will be excluded from this guarantee.

Wiring Instructions: (Removing Passenger Seat is Recommended)

1. Once you have your RTL mounted, connect your RTL to the wiring harness. Be sure to match the colors to the harness. Then run the wiring down alongside the cage, and take the red and yellow leads and route them into the fender well. Illustrated in figure 1.

Figure 1

2. Continue to run harness behind passenger seat along the roll cage. (Figure 2)

Figure 2

3. Now connect the power and ground to the battery (Figure 3), or there are also two terminals located underneath the center console, where the wires can be connected. (Figure 4)

Figure 3

Figure 4

4. Once, that is wired and connected, you will want to drill out a hole in the desired location where you will want the switch to be mounted.
5. Located under your passenger fender your brake (white with orange stripe) wire, and your running light (purple with white stripe) wire. Once you have located those take the supplied splice connectors to tap into each wire. Yellow wire from harness goes to the brake light, and red wire to the running light wire.
