8	20-1020	6mm Washer	4
9	66-0028	6mm x 16 Button Head SS w/ patch	2
10		Wiring Harness Adapter	1

Step 1: Remove stock headlight and brackets. (RE-USE DUAL SPORT MOUNTING TOWER.)

Step 2: Unplug the existing headlight adapter followed by plugging in the adapter supplied with this kit. The adapter supplied with this kit will only power the light in the high beam position. If you are looking to simulate a high/low beam, part number 63-9208 needs to be purchased separately. This dimmer allows you to program multiple intensity levels for street applications.

Step 3: Once the Squadron Dual Sport Plate and adapter have been installed go ahead and remount the front headlight.

Step 4: Enjoy the most technologically advanced lighting system ever courtesy of Baja Designs: The Scientists of Lighting!

NOTE: If you have clearance issues part number: 12-0015 may be required, you can find this on our website.
