THE SCIENTISTS OF LIGHTING

LIMITED LIFETIME WARRANTY

Baja Designs proudly offers a LIFETIME WARRANTY against manufacturer's defect on all the products that we manufacture.

These are comprehensive warranties; other than the exclusions below – you're covered. If your LED or HID bulb burns out, you're covered. Additionally, cutting off our connector or changing your lenses does not automatically void your warranty.

Exclusions:

Installation errors, abuse, misuse or crash damage. You must be the original owner of the product and can supply proof of purchase.

Baja Designs manufactures its own products as well as resells products manufactured by others. Baja Designs makes no express or implied warranties on products not manufactured by Baja Designs including without limitation any warranties or merchantability and fitness for a purpose. We will, however, pass on all warranties made by the manufacturer, who has sole responsibility for performing such warranties.

Baja Designs will pay the freight if your product is less than 90 days old, otherwise defective products must be returned to Baja Designs, Inc., freight prepaid. At our option, we will repair or replace items in question and return them at no charge. If the identical product is no longer available, we will replace with a similar product of equal value. Baja Designs Inc. will not be responsible for any indirect or consequential damages in connection with defective merchandise.

Items purchased through a Baja Designs authorized dealer must be returned through the dealer. Only available on LED auxiliary lights and product must be in sellable condition at MSRP. Product that has been damaged in any way after the original purchase date will be excluded from this guarantee.

Indemnification:

Buyer hereby acknowledges off-roading, racing and driving at night are dangerous activities and that the products and/or supplies purchased from Baja Designs are used in an inherently dangerous activity that may endanger life and limb; and in no event shall the seller, or seller's heirs and assigns, be held liable for consequential damages, nor shall seller's liability on any claim for damages arising out of or connected with the sale, delivery, or use of purchased products and/or supplies exceed the purchase price of the products and/or supplies.

Buyer is responsible for ensuring that it uses the products (and its vehicle) in accordance with all applicable laws, regulations, guidelines, and standards of care. Buyer acknowledges that some products may only be used when off-roading, and Buyer will comply with all vehicle and road safety guidelines. Buyer is solely responsible for (and will indemnify and hold Bestop harmless for) any claims, losses, damages, fines, fees, costs, or other amounts arising out of Buyer's non-compliance with these provisions.

KTM XL LED Headlight Instructions

Tools Required

- 2.5mm Allen wrench
- 4mm Allen wrench
- 7mm wrench
- T20 Torx Driver
- 10mm wrench

Directions:

1. Unclasp the rubber headlight straps.
2. Disconnect headlight plug, keyed ignition switch*, and blinkers*.
(*if present)
3. Dismount the brake cable and speedometer cable from the headlight mask.
4. Remove headlight assembly and place on a soft work surface.
5. Using T20 Torx driver, remove the three screws that mount the headlight. Remove the headlight.
6. Attach the tilt adjuster hardware with the 7mm wrench and 2.5mm Allen wrench.
7. With the 10mm wrench and 4mm Allen wrench, attach the new headlight to the mask with provided hardware. Thread in and tighten the T20 tilt adjust bolt.
8. *Optional:* Attach Hi/Low harness adapter to plug from step using supplied harness instructions.
9. Place headlight assembly back onto the lower alignment posts on the fender. Route brake line through mask. Reconnect the headlight, blinkers, and keyed ignition switch. Strap the headlight assembly back to the forks. Adjust the tilt of the headlight.

Re-torque fasteners after 100 miles.

Your installation is now complete, thank you for choosing Baja Designs!
